

Name _____

Where's The Leaf?

Leaves can be many different shapes and sizes.
Study each picture.
Draw an arrow that points to a leaf on each plant.

 grass	 redwood tree	 water lily	 wheat
 pine tree	 daffodil	 hemlock tree	 oak tree
 corn	 maple tree	 rosebush	 spruce tree

Most leaves can be divided into the three following groups according to their basic shapes:

broad leaf: leaf is rather wide and flat

narrow leaf: leaf is long and slender

needle leaf: leaf looks like a thick needle

Decide which group each leaf above belongs in.
Use the code to color each

Color Code

broad leaf = yellow

narrow leaf = green

needle leaf = blue
