

# Hibernation

Name: \_\_\_\_\_

How do animals survive winter? Some animals sleep all winter - this is called hibernation. Their body temperature drops and their heartbeat and breathing slow down which means they need very little or no food. Look at the animals below that hibernate. Draw a line from the name of the animal to the correct picture.

- Bear •
- Badger •
- Skunk •
- Frog •
- Squirrel •
- Turtle •
- Snake •
- Worm •
- Raccoon •
- Hamster •
- Mouse •
- Chipmunk •
