

# I Love You DAD

For all things you've had me through and taught me  
And for your wisdom that you will never lose me  
Through and through you're always the best  
Helping me do things and anything I have  
Because you're there for me, always calling and care  
I wish I could get to thank you enough for everything you do, I love you  
Thank you for being my Father

Write your own special message for the Father's Day.
