
KITCHEN SAFETY

Aunty Violet has asked you to babysit her daughter Rosie for the evening. You walk into the kitchen; the illustration on this page shows what you see.

Make a list of the possible accident and danger spots here. Which areas might pose particular dangers to Rosie?

When you have finished, get together with two or three other people and compare what you have written. Make one long list naming all the possible accident and danger sites.

Then say how you would change the kitchen to make it safer. You can replace any item here with something less dangerous. Draw a picture or diagram of the new, safer kitchen.
