

4. Describe what your "animal" looks like at the start of the experiment.

---

---

---

5. What procedure will you follow?

---

---

---

---

6. What did your "animal" look like at the end of the experiment?

---

---

---

---

7. What was the purpose of the control animals? What happened to them during low tide?

---

---

---

---

8. What conclusions can you draw from this experiment?

---

---

---
