

# Me, Myself and I

Since it is the beginning of the year, doing an activity to get to know each other seems a good idea. So, using the magazines you brought to class, you will do a collage which represents you. It can be your favourite color, meal, sport, animal, activities, celebrity and so on. Use your imagination.

## Steps:

1. You will skim through the magazines and cut what represents you and what you like. It can be anything.
2. Once you have a couple of images, you will choose a minimum of five that you will use for your collage. If you have more than five, you can use all of them, but not more than ten.
3. When you are ready to glue, you will come and get a coloured sheet in front of the class.
4. Write your name on the sheet. It can be in the middle, on top, wherever you want. You can write in big and colour it. It will be the center of your collage.
5. You are now ready to glue your images.
6. If you want, you can continue decorating your collage if you have time.
7. Once your collage is done, you will have to prepare a presentation. You will present yourself to the rest of the class using your collage, you can write the names of the activities at the back of your sheet to help you. (You will have to mention your name, where you live and what interests you.) 2 minutes
