

1 Point Perspective: Cubes

This exercise explains how to draw a cube in one point perspective and leads you through the steps of drawing these shapes. Before you start, draw a horizon line.

KEY POINTS

- Draw the horizon line and draw a cube below it (you see the bottom of the cube).
- Draw a vertical line below the horizon line and draw a cube above it (you see the top of the cube).
- Draw a vertical line in line with the horizon line and draw a cube on either side of the line (you see both the top and the bottom of the cube).
