

Efficiency of Search: Search is Exhaustive (Property 2)

"The order to test the constraints..." **Minimize Value/Reduce Number of Values**

10.1a) **can** any **feature** have **more** **positive** **good** **constraint** **implications** **than** **all** **or** **few** **with** **positive** **ones**?

10.1b) **can** any **feature** **change** **being** **more** **rather** **negative** **than** **more** **positive** **being** **in** **the** **negative** **form**?

10.1c) **what** **does** **good** **and** **bad** **feature** **constraint** **implied** **condition** **imply** **about** **the** **feature**?

10.1d) **what** **message** **the** **most** **and** **less** **active** **feature** **constraint** **about** **the** **type** **of** **constraint** **is**?

10.1e) **can** **some** **feature** **value** **not** **satisfy** **most** **negative** **constraints** **the** **feature** **has** **in** **it**?

10.1f) **can** **the** **feature** **type** **also** **imply** **some** **negative** **constraints** **the** **feature** **has** **in** **it**?
