

### ECOLOGY UNIT VOCABULARY REVIEW GAME

In this activity, students will work in groups of 4 or 5 to test their vocabulary knowledge. This activity will provide the students with the opportunity to master all of the terms learned in this unit.

Directions:

1. Each group of students will receive a deck of 18 cards. One student from the group will pick up a card from the deck and provide clues to help the other students in the group guess the target bolded word on the top of the card. The key is for the student providing the clues not to use the two words listed below the target word in his or her explanation.
2. The person who guesses the target word correctly gets the card and draws another card from the deck to give clues to the group. Repeat Step 1. Once the deck is finished, the student with the most cards wins the game and is crowned King or Queen of vocabulary in that group.

#### NOTES:

- photocopies of the "cards" should be made in order to have enough decks per group of students.
- the copies of the cards will be made on cardstock paper so the cards are thicker and not as flimsy.
- cut each card to make individual squares, and keep each deck tied with a rubber band or binder clip until use.
