

System of Equations  
Use the Elimination Method

**System of Equations**

1.)  $0 = -6y - 22 + 5x$   
 $-14x = -22y - 72$

2.)  $9x = -12 - 33y$   
 $10y + 5x = -15$

3.)  $16 = 11x - 3y$

$-14x - 4y = 36$
