

Binary Compounds: II

A. Write the chemical name for the following:

carbon monoxide _____

carbon dioxide _____

diflourine monoxide _____

diphosphorus trioxide _____

sulphur tetraflouride _____

ammonium chloride _____

hydrogen cyanide _____

sulphur trioxide _____

iron (II) selenide _____

gold (I) phosphide _____

tin (IV) carbide _____

manganese (II) carbide _____

B. Write the chemical formula for the following:

C_3N_4 _____

C_3S_2 _____

H_2O _____

SBr_6 _____

CuOH _____

$(\text{NH}_4)_2\text{S}$ _____

Mn_2O_7 _____

$\text{Al}(\text{OH})_3$ _____

HgCN _____

S_7F_2 _____

NO_2 _____

PbO_2 _____
