

Value - Tints & Shades - Monochromatic Colors

Student's Name: _____		
Today's Date: _____	Art Period: _____	Student's Grade Level: 9th, 10th, 11th, 12th

Use pencil points to complete the following exercises.

Value: the lightness to darkness of a hue.

Monochromatic Colors are all the colors (hue) and shades of a single hue.

• Tint is a hue (a color) + white added

• Shade is a hue (a color) + black added

White	White + White = Tint	White + Black = Shade	White + White + Black	Tinted
White	White + White = Tint	Red + White = Tint	Red + White + Black	Tinted
White	White + White = Tint	Blue + White = Tint	Blue + White + Black	Tinted

• Shade is a hue (a color) + Black added

• Tint is a hue (a color) + white added

White	White + White = Tint	White + Black = Shade	White + White + Black	Tinted
Red	Red + Red = Tint	Red + Black = Shade	Red + Red + Black	Tinted
Blue	Blue + Blue = Tint	Blue + Black = Shade	Blue + Blue + Black	Tinted
