

Name _____

Groundhog Day
Lesson 1.1.1

Funny Forecasting

These groundhogs forecast a chance of...fraction!

Use the color code to show each fraction:

If the shape is divided into two parts, color one-half.

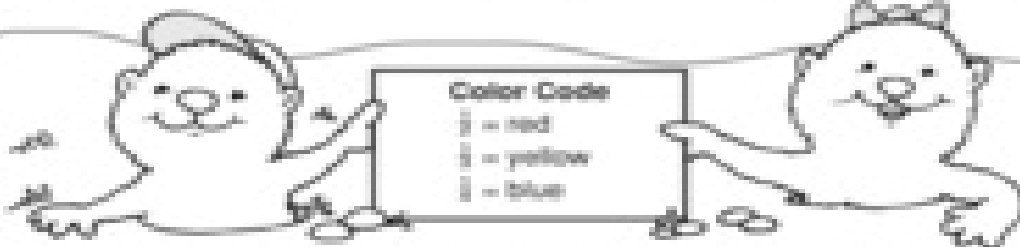

If the shape is divided into three parts, color one-third.

If the shape is divided into four parts, color one-fourth.

Then write the fraction.

A.				
E.				
L.				
	_____	_____	_____	_____

Bonus Step: On the back of this sheet, write a Groundhog Day prediction. Tell a reason why you think the groundhog will or will not see its shadow on Groundhog Day.
