

Line

Line: An element of art that is used to define shape, volume, and surface, also to suggest movement and direction. It may be a continuous mark made on a surface with a pencil, brush or implied by the edges of objects and forms.

Characteristics of Line are:

- **Width:** _____
- **Length:** long _____, horizontal _____
- **Direction:** vertical, vertical diagonal, slanting _____, curved, parallel, curved.
- **Weight:** thin _____, heavy _____
- **Feeling:** strong, elegant, graceful _____

Types of Line:

1. **Outline Line:** Lines that define the shape or subject of an object.
2. **Section Lines:** Lines that indicate the boundaries of an object's structure or a part.
3. **Implied Line:** Lines that are not actually drawn but created by a _____ of objects seen from a distance. The directions are related to pointing to, or the direction of movement towards.

Draw the Lines:

1. Below are five boxes. Draw with the outlines of line for each box.
2. In the blank under the box come up with names for the line that draw (see it)
