## All About Me in Numbers

Choose 6 numbers that tell something about yourself and write what it means. Write the numbers on the lines below and the reasons in the boxes. Try to have a range of numbers (not all single digits, etc.) . If you can, bring in 1-2 photos (that will be added to a poster and laminated) to "illustrate" a number. This could be a picture of your family to illustrate that number, etc. We will be going out to create number posters in class.
