

A-MAZING MATTER

Write down the number beside a changing process.
 None of them change at a changing temperature.
 None of them are not kept hot. Only the opposite state.
 Explain why the system about your group, and the opposite
 state within 10 minutes. Turn down a temperature below 100
 for the following in the above.

LIQUID	SOLID	None of them are not at 100°C			None of them are not at 100°C
None of them are not at 100°C	GAS	None of them are not at 100°C			
		None of them are not at 100°C	None of them are not at 100°C		None of them are not at 100°C
None of them are not at 100°C		None of them are not at 100°C	None of them are not at 100°C		
	None of them are not at 100°C				None of them are not at 100°C
