

Come on if you think you can take us on

Where two and two always makes up five

There'll be no more lies

There was nothing to fear and nothing to doubt

Everything is in its right place

Just cause you feel it doesn't mean it's there

You are all I need

Put me inside

Everyone around here

We are too young to fall asleep, too cynical to speak

I used to think there is no future left at all

Phew, for a minute there I lost myself

I'm back to save the universe

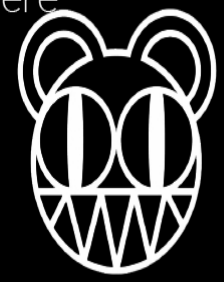

I wish that I was bullet proof

It wears her out

This isn't happening I'm not here

They will suck you down to the otherside

Come on rain down on me

Immerse your soul in love
