

Area

Name: _____

Measure the length and the width of these regular shapes then find the area.

Area = length X width.

$$\begin{aligned} \text{Area} &= ___ \times ___ \\ &= ___ \text{ cm}^2 \end{aligned}$$

$$\begin{aligned} \text{Area} &= ___ \times ___ \\ &= ___ \text{ cm}^2 \end{aligned}$$

$$\begin{aligned} \text{Area} &= ___ \times ___ \\ &= ___ \text{ cm}^2 \end{aligned}$$

$$\begin{aligned} \text{Area} &= ___ \times ___ \\ &= ___ \text{ cm}^2 \end{aligned}$$

$$\begin{aligned} \text{Area} &= ___ \times ___ \\ &= ___ \text{ cm}^2 \end{aligned}$$

$$\begin{aligned} \text{Area} &= ___ \times ___ \\ &= ___ \text{ cm}^2 \end{aligned}$$

$$\begin{aligned} \text{Area} &= ___ \times ___ \\ &= ___ \text{ cm}^2 \end{aligned}$$

$$\begin{aligned} \text{Area} &= ___ \times ___ \\ &= ___ \text{ cm}^2 \end{aligned}$$

$$\begin{aligned} \text{Area} &= ___ \times ___ \\ &= ___ \text{ cm}^2 \end{aligned}$$

$$\begin{aligned} \text{Area} &= ___ \times ___ \\ &= ___ \text{ cm}^2 \end{aligned}$$

$$\begin{aligned} \text{Area} &= ___ \times ___ \\ &= ___ \text{ cm}^2 \end{aligned}$$

$$\text{Area} = ___ \times ___ = ___ \text{ cm}^2$$

Score _____
