

Test: Are You an Expert?

To find out, answer the questions and count the number of ▲, ■ and ●. Scores are at the bottom of the page.

- Your little dog Fiver hates water:
 - ▲ You just wash under his paws from time to time.
 - You never bath him.
 - You regularly give him a good foamy bath all the same.
- When you grow up:
 - You will have lots of pets sleeping on your bed!
 - Your pets will not be allowed to sleep just anywhere
 - ▲ The smaller ones will sleep next to you on the pillow
- If you had a grey cat:
 - ▲ You would change his litter tray only on rainy days
 - You would clean his litter tray frequently.
 - You would let him sort himself out: it's natural...
- You and your friends find a hamster hiding in your garden:
 - You would give him lots of cuddles and kisses to comfort him.
 - ▲ You would give him a little kiss on the nose.
 - You would stroke him gently, and then go and wash your hands.
- At mealtimes, you think:
 - ▲ You take him to the vet as soon as you can to have him vaccinated.
 - Separate plates for me and pets!
 - Togetherness is best: let's all have the same bowl!
- Your present under the Christmas tree is a little puppy!
 - You take him to the vet as soon as you can to have him vaccinated.
 - If you are his friend, he won't get ill.
 - ▲ All he needs to keep him healthy is a flea collar.
- The rabbit Longears has been sleeping on the sofa. His hairs are everywhere:
 - You think the hairs look rather pretty.
 - You tell Longears off, and use the vacuum cleaner.
 - ▲ You blow on the hairs so they are not so noticeable.

How did you score?

Mostly
You are an expert, 100%. You know how to apply hygiene practices for living happily and healthily with a pet. You know all about bath, vaccine and bowl. So make sure you help your friends when you see them taking risks.

Mostly
You know about hygiene practices, but you don't always use them with pets. To have a pet as a friend does not protect you from diseases. For the sake of your own health, that of your family and your pet, remember always to be careful.

Mostly
Hygiene really is not your cup of tea! You like to share everything with your pet: your bed, your plate, your toys. But being friends doesn't mean being the same. So try to do a few basic things, like washing your hands after stroking your pet. He won't be upset and you will stay healthier!
