### Cause and Effect Flowchart

The flowchart template consists of ten rows. Each row is a large horizontal rectangle divided into two sections by a vertical line. From the bottom center of each section, a line extends downwards to a small rectangular box. These two boxes are connected by a horizontal line, which then splits into two diagonal lines that meet at a point in the center, forming a downward-pointing arrowhead. This structure is repeated for each of the ten rows, providing a space to write a cause on the left, an effect on the right, and a connecting sentence in the central box.
