

---

Given the domain of the function, find the range.

9. Domain:  $\{-2, 1, 7\}$   
Function:  $y = 3x - 7$

12. Domain:  $\{-8, -2, 0\}$   
Function:  $f(x) = -2x^2 + 4x$

10. Domain:  $\{-4, -2, 0, 8\}$   
Function:  $f(x) = 5x + 3$

13. Domain:  $\{-1, 3, 7\}$   
Function:  $y = x^2 - 8$

11. Domain:  $\{-3, 1, 9\}$   
Function:  $y = 3x^2 - 5x + 4$

14. Domain:  $\{-3, -2, 0, 5\}$   
Function:  $f(x) = -4x^3 + 5x$
