

# I Can't Draw <sup>ooo</sup> Practice

## Until I

### PORTRAITS

A portrait is a picture of a person.

First draw an oval

Divide it into four parts.

These lines are guidelines. Draw them very, very light. You can erase them later.

Make eyes. Divide bottom 1/2 in 2 parts.

Make nose. Divide bottom 1/2 in 2 parts. These make mouth.

Ears are between eyes and nose guidelines.

Oh yeah! Get all dressed up. Add lots of details.

Oh... and erase the guide lines

A side view is a profile. Remember the nose sticks out
