If you budget yourself accordingly, you can use the extra money oney for savings and investment.

Remember your goals from Part 1 and make sure you factor those into the equation!

This budget should be formulated around project #2 information including the following: career income, additional incomes, fixed expenses, variable expenses, periodic expenses and add any short or long term goals that you would budget a little bit of money for each month

This needs to be typed as well as your final summary of your experience for Friday Oct. 30.
