

The Spanish Armada

English history often uses every-mentioning their year like learning about English history. This would be important for most school about the Spanish Armada.

The Spanish Armada was a big fleet of ships. The number of 1500 all these ships were in the English Channel. There was a big battle. The English ships were smaller, but the English were better sailors. It was an English victory.

There are many exciting stories about this war, especially about the French Drake, who was an admiral of the English ships.
