NORTHISIDE CHRISTIAN SCHOOL 7th GRADE SCIENCE

EARTH SCIENCE 2009/2010

GOALS:

- 1) To appreciate the majesty of the earth and universe as it reveals God's wondrous and
- 2) To gain an understanding of the tremendous forces that shape and change the Earth's surface,
- 3) To understand how the "spheres" of the earth are completely inter-related,
- 4) To provide activities, demonstrations and labs to support and gain further insight of the many dimensions of earth science,
 To understand earth science in light of Biblical teaching concerning creation and the
- flood and comparing it to modern evolutionary and geological theories.

TEXT: Space & Earth Science, 3rd Edition, Bob Jones University Press, 2005.

- Separate spiral notebook for notes (no three-ring binders)
 Folder with pockets for handouts, worksheets, and homework
 Bring you text book to every class

ACTIVITIES: (I love teaching in a variety of ways and you will enjoy learning in a variety of different ways)

- 1) Text book reading (This will always be a basic requirement)
- 2) Test (I use a variety of test questions and the test will be over the chapters and/or sections in text) - Key in on your notes from class
- Quizzes over reading and/or sections from chapter.
- Drawings
- Laboratory experiments and demonstrations
- Internet activities
- 7) Worksheets activities8) Individual and group presentations

REQUIREMENTS AND GRADING:

- 1) Your grade for each nine weeks will be based upon a total point system from the activities above. Test grades will always be figured as a percent and will be worth 100 points. Because the activities and assignments offered during a grading period will vary, the breakdown and total points for a grading period will vary.
- 2) If you are absent, it becomes <u>your responsibility</u> to:
 - a. Get the missed notes from a fellow student/s as soon as you return you must ask. This is the number one problem of most students. After you copy the notes please don't hesitate to come to see the teacher for further explanation and understanding.
 - Obtain any missed handouts, worksheets from the teacher you must ask
 - Obtain an understanding for any assignments that were given while you were absent - you must ask.
