

To Whom It May Concern;

This is a letter of recommendation for Ezra Pike, a former student of mine at the Art Institute Of California - Los Angeles. Since being in my class, Ezra's skills all around improved as he finished his program at school. Ezra is hard working and has learned a variety of skills in computer graphics, and has continued to do so. Ezra's enthusiasm and easy going attitude would benefit your studio in an entry level position doing a variety of tasks as he continues to grow.

Sincerely

Brandon T Perlow
