

Name _____

How will soaking gummy bears in water affect their size?

Prediction:

Procedure:

1. Write your name on the cup.
2. Use your ruler to find the height and width of your gummy bear in centimeters and record in the data table.

3. Fill cup half full with water. (Teacher will do this for you)
4. Place gummy bear in water overnight.
5. Carefully measure height and width of pre-soaked gummy bear in centimeters and record in data table.

Data:

Before soaking in water	After soaking in water
Height:	Height:
