MEMORANDUM UNIVERSITY OF PHOENIX

ARTICLE SYNOPSIS

In your own words, summarize the article.

In the article it is talking about how copyrights are being broken by people selling school books on eBay from other countries. Although they have the correct information in them they are not by the original writer. The publisher got awarded six hundred thousand dollars from the case. The article is about selling products that were made abroad and sold. The article talks about a couple cases of copyrights, the other one is with Costco and the Swiss watch maker Omega. It is said that Costco buys products from abroad and sells them without permissions of the manufacturer. Abroad the manufactures sell products cheaper and they call it a gray market.

LEGAL ISSUE

In 1 to 3 sentences, identify the legal business issues raised in the article.

The legal issue is that businesses in the United States are losing money from products made overseas that are alike other products. If the products are exported from here and sold back to the United States that would be legal. People are using their family and friends to send them product to the United States for them to sell here and this is bringing up more cases of the copyrights issue.
