SENIOR ENGINEER

Senior Highway Engineer with over 15 years of experience in the management, planning and design of urban and rural roadways. Professional Civil Engineer skilled in site development, post design services and drafting bid packages. Technically proficient in Windows, Microsoft Office, MicroStation and IdCPR.

- Worked as both Design Engineer and Senior Engineer for the FDOT in large government transportation projects, serving as principal client contact.
- Accredited for the salvation of ABC Avenue Project for XYZ County, which brought project back to compliance. Efforts garnered a letter of gratitude from the previously dissatisfied client.
- Held private consultation practice and was involved in all levels of planning, design, and permitting for private development.

PROJECT MANAGEMENT

Accomplished Project Manager experienced in strengthening internal controls to improve forecasting and proposal development. Proven ability to provide accurate cost estimates and successfully negotiate contracts. Leader adept in human capital development, building teams, and cultivating beneficial client relationships.

- Managed FGH Research Park Project. Prepared engineering report evaluating ten miles of existing roadways, including a comprehensive 20 year pavement management plan for the site.
- Served as Project Manager for DOT District Q. Monitored the progress of consultants accountable for critical projects throughout the design and right-of-way acquisition phases.
- Managed complex projects for various engineering firms and consistently exceeded objectives. Developed proposals and prepared cost estimates for alternate designs based on client's requirements, use of common engineering practices, and innovations.
