

## **Properties of Metals, Nonmetals, Metalloids**

**Luster**

**Malleable**

**Ductile**

**Thermal conductivity**

**Electrical conductivity**

**Semiconductor**

**Reactive**

**Corrosive**

Physical & Chemical Properties of Metals, Nonmetals, Metalloids

Foldable

Directions:

Fold in half (hotdog fold) and cut on the dotted lines to form 8 flaps.

Define the terms (under the flap) and draw a picture (on the inside of the flap) that represents the property.

Glue this side of the foldable to your notebook.
