

Trigonometry: Ratios & Inverse Trigonometry

Name: _____

Mark 2: Write the equations.

Answer:

Answer:

Answer:

Mark 3: Find the missing sides of the right-angled triangle using trigonometric ratios.

Mark 3: Find each angle measure.

(i) $\sin \theta = 0.6245$

(ii) $\cos \theta = 0.6750$

(iii) $\tan \theta = 0.6250$

Mark 3: Find the missing angle by using trigonometric functions.
