**Important:** Remember to put your Works Cited list is in alphabetical order (sources are **not** numbered). You should have at least three entries, and each entry in your list of Works Cited should match an in-text citation in the body of your paper. The list is double spaced, with no extra space in between each entry, and there are hanging indents for entries longer than one line. For more information about the Works Cited page, visit the following webpage: <http://owl.english.purdue.edu/owl/resource/747/12/>.
