

## Chapter 1 - From World War to World War II - 1914-1918

- 1914-1918: World War I - The first global conflict in modern history
- 1918-1919: World War I ends - The war ends with the signing of the Treaty of Versailles
- 1919-1920: World War I aftermath - The war's impact on the world, including the Russian Revolution and the Spanish Flu pandemic
- 1920-1929: World War I aftermath - The war's impact on the world, including the Russian Revolution and the Spanish Flu pandemic
- 1929-1939: World War I aftermath - The war's impact on the world, including the Russian Revolution and the Spanish Flu pandemic

Business suggests early people may have been in the Americas around 10,000 years ago, or even longer.

### The Spanish Flu Pandemic

The 1918-1919 influenza pandemic, also known as the Spanish Flu, was the deadliest pandemic in modern history. It is estimated that it killed between 50 million and 100 million people worldwide. The pandemic was caused by a highly contagious influenza A virus. The pandemic was first reported in Spain in 1918, and it spread rapidly to other parts of the world. The Spanish Flu pandemic was caused by a highly contagious influenza A virus. The pandemic was first reported in Spain in 1918, and it spread rapidly to other parts of the world. The Spanish Flu pandemic was caused by a highly contagious influenza A virus. The pandemic was first reported in Spain in 1918, and it spread rapidly to other parts of the world.

### World War I (1914-1918)

World War I was a global conflict that lasted from 1914 to 1918. It was the first world war, and it was the deadliest conflict in human history. The war was fought between the Central Powers (Germany, Austria-Hungary, and the Ottoman Empire) and the Allied Powers (France, Great Britain, and the United States). The war was caused by a complex of factors, including nationalism, imperialism, and a system of alliances. The war ended with the signing of the Treaty of Versailles in 1919.
