

LEMON TREE by Fool's Garden

Fool's Garden is a German pop group formed in 1991, comprising singer Peter Freudenthaler, guitarist Volker Hinkel, bassist Thomas Mangold, keyboardist Roland Köhl, and drummer Ralf Wochels.

Their first album was released in 1993, followed two years later by "Dish of the Day", the album containing Lemon Tree.

When the guitarist Volker Hinkel and the singer Peter Freudenthaler founded the band Fool's Garden in 1991, they couldn't really imagine what a great success their song "Lemon Tree" was going to have in 1996. This megahit conquered the charts all around the world and, even nowadays, it's always played and sung everywhere.

In order to continue with this success, the band had a new beginning in 2003. Peter and Volker went on tour with a new band, a new album and a different name, with big success among old and new fans. The new musicians Gabriel Holz (guitar) Claus Müller (drums) and Dirk Blügelin (bass) became the new members of Fool's Garden.
