Missing Facts & Answers

Each example below has a number missing in it. Fill in the blanks with the correct answers. If the fact does not go into the answer "evenly", put an "X" in the blank to show that. Practice makes better!

1) $6 \times \underline{\quad} = 24$

2) $7 \times \underline{\quad} = 63$

3) $5 \times \underline{\quad} = 55$

4) $\underline{\quad} \times 3 = 24$

5) $\underline{\quad} \times 7 = 36$

6) $12 \times \underline{\quad} = 36$

7) $3 \times \underline{\quad} = 15$

8) $7 \times \underline{\quad} = 56$

9) $9 \times \underline{\quad} = 45$

10) $6 \times \underline{\quad} = 32$

11) $\underline{\quad} \times 4 = 28$

12) $\underline{\quad} \times 8 = 16$

13) $11 \times \underline{\quad} = 66$

14) $6 \times \underline{\quad} = 54$

15) $12 \times \underline{\quad} = 48$

16) $\underline{\quad} \times 4 = 32$

17) $9 \times \underline{\quad} = 35$

18) $12 \times \underline{\quad} = 36$

19) $\underline{\quad} \times 4 = 40$

20) $6 \times \underline{\quad} = 44$

21) $\underline{\quad} \times 7 = 77$

22) $9 \times \underline{\quad} = 81$

23) $3 \times \underline{\quad} = 27$

24) $\underline{\quad} \times 4 = 100$

25) $7 \times \underline{\quad} = 59$

26) $6 \times \underline{\quad} = 48$

27) $\underline{\quad} \times 9 = 27$

28) $8 \times \underline{\quad} = 62$

29) $2 \times \underline{\quad} = 18$

30) $\underline{\quad} \times 3 = 18$

31) $9 \times \underline{\quad} = 67$

32) $5 \times \underline{\quad} = 20$

33) $\underline{\quad} \times 2 = 14$

34) $6 \times \underline{\quad} = 30$

35) $4 \times \underline{\quad} = 18$

36) $\underline{\quad} \times 5 = 40$
