## Rounding Decimals ~ Double Step

Round each of the following fractions to decimals according to the legend on the right. Each of these fractions must be changed to decimals first by dividing the numerator by the denominator - then you can try and round the answer. Good luck!

- 1) seven sixths A
- 2) thirteen twentieths B
- 3) seventeen eighteenths C
- 4) three hundred twelve thousandths D
- 5) four hundred sixteen forty-sevenths E
- 6) twelve forty-firsts B
- 7) eighteen fifths D
- 8) two hundred thirteen fifty-fifths F
- 9) two eighteenths E
- 10) twenty nine one-hundredths C
- 11) forty-eight fifteen-hundredths B
- 12) thirty-seven fifty-five-hundredths F
- 13) eleven twelve-hundredths A
- 14) six thousand seven hundred twenty-nine forty-thirds D
- 15) twenty-seven thousand twenty-seven twenty-seventh D

Legend	
A	Basic
B	Intermediate
C	Advanced
D	Ten thousandths
E	Hundred thousandths
F	Millionths

\* = more difficult

Think about it.

Are the fractions in between the whole numbers 1 and 2 basic or
