

How many values does
the \sin function have?
What is the range of the \sin function?

What is the period of $\sin(x)$?

What is the period of $\cos(x)$?

What is the period of $\tan(x)$?

What is the period of $\cot(x)$?

What is the period of $\sec(x)$?

What is the period of $\csc(x)$?

What is the period of $\sec^2(x)$?

What is the period of $\csc^2(x)$?

What is the period of $\tan^2(x)$?

What is the period of $\cot^2(x)$?

What is the period of $\sec^2(x)$?

What is the period of $\csc^2(x)$?

What is the period of $\tan^2(x)$?

What is the period of $\cot^2(x)$?

What is the period of $\sec^2(x)$?

What is the period of $\csc^2(x)$?

What is the period of $\sec^2(x)$?

What is the period of $\csc^2(x)$?
