

How many values does
the \sin function have?
What is the range of \sin ?

What is the period of \sin ?

What is the range of \cos ?

What is the period of \cos ?

What is the range of \tan ?

What is the period of \tan ?

What is the range of \cot ?

What is the period of \cot ?

What is the range of \sec ?

What is the period of \sec ?

What is the range of \csc ?

What is the period of \csc ?

What is the range of \sec ?

What is the period of \sec ?

What is the range of \tan ?

What is the period of \tan ?

What is the range of \cot ?

What is the period of \cot ?

What is the range of \csc ?

What is the period of \csc ?
