# Big vs Small

Circle the larger one in each section.

The illustration shows an underwater environment with a sandy bottom, coral, and small fish. Four thought bubbles are arranged in a 2x2 grid. Each bubble contains two versions of a sea creature, one larger than the other, for a size comparison exercise. The creatures are: 1. A squid-like creature with long tentacles. 2. A crab. 3. A spotted fish. 4. A jellyfish.
