

# MANNERS BINGO

You said please	You talked your game down	You helped with the table properly	You ate everything off of plate you set	You cleaned your dishes when you were done eating
You ate slowly	You told your friends about something you did that day	When you talked, you raised your hand and waited until you were called on	You cleaned up after	You asked the food to be passed to you
You always passed off the table	You waited for someone to be named before you ate, or	None	You spoke loudly or constantly to the table	You used napkins when you needed to blot the table
You put your napkin to your lap	You helped pass the food on the table	You didn't use your fingers, but used your fork	You checked for a full five seconds before you dined	You used drink water
You waited until your seatmate ate before you ate or before your fellow seatmate to eat	You waited to ask your seatmate for help	You passed food to someone when they asked	You ate everything you didn't like	You took only your share of food
