

The job interview

The job interview is very important. Before you go there you must think of a lot of things. You should know about the company, the people who work there, the kind of work you will do, and the kind of people you will be working with. You should also think about the questions you will be asked and the answers you should give.

Remember: Good first impressions are the best way to start.

Remember: When the interviewer asks:

What does the job mean?

Can you tell me where the work is?

When will I be hired?

Do you have a good idea of the work?

When will you start work?

What are the best things about the job?

Should you talk about what you can do?

Remember: It is not just about the money.

They want to know what you are worth.
