

Name: _____

1 - 10 Number Recognition Self-Assessment

Use the child to name each number. Have the child color the number if they get 10/10. If the child is uncomfortable in coloring the teacher can do it. The main goal is that our young numbers the child can recognize. After 10/10 aren't get 10/10, leave the number blank. At the end of the assessment activity celebrate all the numbers the child knows and point to the ones the child needs to practice and make a learning goal. **Directions:** Use one color for each line you assess the child. Color the bubbles and write the date of the assessment below.
