

ENGINE SERVICE AND MAINTENANCE WORKSHEETS

These thirty worksheet masters can be duplicated for students and used in teaching this important topic. Each worksheet contains: Part ID, Procedures, Skills Taught, Materials and Evaluation. Order as sets by engine service areas. HOBAR

Battery Service & Maintenance

- Storage Battery Principles
- Testing Battery Leakage
- Servicing the Storage Battery
- Battery Testing with Hydrometer
- Battery Capacity Testing
- Charging the Storage Battery

Set of Six Battery Service Worksheets

Order Number: 817\$5.65

Testing the Ignition System

- Using the Dwell Tachometer
- Adjusting Dwell or Cam Angle
- Using the Timing Light
- Using the Remote Starter Switch
- Using the Compression Tester
- Testing Primary Ignition Voltages
- Testing Secondary Ignition Wires
- Testing the Ignition Coil
- Testing Ignition Points Resistance
- Testing a Condenser
- Testing the Ballast Resistor
- Testing the Cranking Voltage
- Testing the Charging Voltage
- Testing Amperages with the Dual Current Indicator

Set of Fourteen Ignition Systems Worksheets

Order Number: 832\$13.25

Engine Cooling System

- Engine Cooling System
- Cooling System Pressure Cap and Thermostat
- Testing the Radiator Cap and Cooling System
- Using the Antifreeze Coolant Tester

Set of Four Engine Cooling System Worksheets

Order Number: 839\$3.50

Alternator Testing and Service

- Alternator Component Study—Delco Remy
- Alternator Disassembly—Delco Remy
- Testing Diodes
- Testing the Alternator Rotor
- Testing the Alternator Stator
- Alternator Component Study—Motorola

Set of Six Alternator Service Worksheets

Order Number: 846\$5.65

Complete Set

Contains one of each of the worksheet sets listed above in a tabbed three-ring notebook. HOBAR

Order Number: HWSM-ESM\$35.50

MODERN AUTOMOTIVE TECHNOLOGY

Details the construction, operation, diagnosis, service, and repair of late-model automobiles and light trucks. This comprehensive textbook uses a building-block approach that starts with the fundamental principles of system operation and progresses gradually to complex diagnostic and service procedures. Short sentences, concise definitions, and thousands of color illustrations help students learn quickly and easily. This newly revised text provides thorough coverage of the latest developments in the automotive field, including hybrid drive systems, computer network communication, and tire pressure monitoring systems. Organized around the eight ASE automobile test areas, Modern Automotive Technology is a valuable resource for students preparing for a career in automotive technology, as well as experienced technicians who are preparing for the ASE certification tests. GOODHEART-WILLCOX

Text: 1613 pages, 2009, hardcover

Order Number: 956-6\$82.00 each, \$65.60 (10 or more)

Workbook: 532 pages, Includes additional problems and questions to reinforce and enrich material in the text.

Order Number: 958-0\$21.50 each, \$17.20 (10 or more)

Instructor's Manual: Provides numerous instructional resources that support each chapter of the textbook including teaching strategies, test masters, answer keys, introductory activities, reproducible masters, and additional resources.

Order Number: 963-4\$86.00

Instructor's Resource Binder: 700 pages, Contains all the instructional material from the Teacher's Manual, plus color transparencies, all in a convenient three-ring binder.

Order Number: 964-1\$200.00

Instructor's Resource CD-ROM: Provides instant access to useful instructional resources, ready to print, as you need them. Reproducible masters are presented in PowerPoint format for easy classroom use. Related Web links allow you to immediately connect to numerous online resources. Also included are lesson plans that you can quickly customize to make daily lesson planning easy.

Order Number: 965-8\$240.00

PowerPoint Presentation CD-ROM: Individual License, 2 CDs, over 5000 slides. Visually presents the key concepts for each of the textbook's chapters. Includes literally thousands of illustrations, representing well over half the visual content of the textbook. The program includes the PowerPoint Viewer utility, which permits display without need for PowerPoint presentation graphics software.

Order Number: 968-9\$260.00

RECIPES FOR CAR CARE The Consumer's Guide to Auto Health

Recipes for Car Care shows you how to perform necessary car maintenance as easily as you would follow the recipes of a cookbook. The do-it-yourself "recipes" given with all the necessary ingredients for preventive maintenance are designed to enable you to do everything from locating the hood latch, to performing basic maintenance tasks such as oil changes, and dealing confidently with professional mechanics and car manufacturers. Building on this premise, the author explains what makes a car run and identifies what needs to be done to maintain it. DELMAR

274 pages, 2001, softcover

Order Number: 2838-7\$30.95 each, \$24.76 (10 or more)
