

War Heroes: Voices from Iraq
By Ken Sipe

The young men and women in this book are recognized for their bravery, dedication, and compassion in the midst of life-threatening situations. Their stories paint a picture of war that many of us will never experience, and the author uses authentic vocabulary from the warzone to help tell the tales. Using information from the book and the glossary, define the following terms. Then, use each word in a sentence and include one of the servicemen or women spotlighted in the book. For example, Sergeant Scott Morrison used his life to drag injured Marines out of the line of enemy fire to the Casualty Collection Point (CCP).

grenade:

ambuscade:

IED:

ambush:

suppressive fire:

Purple Heart:
