

**Virtual Lab: Classifying Using Biotechnology
Instructions**

1. Open the Virtual Lab: Classifying Using Biotechnology
2. The virtual lab simulation will be on the right side of the screen, and the “Question” column will be on the left side of the screen.
3. Read the background information in the Question Column under “How can Bacteria be identified?”
4. Read the background information provided in the Microbiology Handbook in the virtual lab.
5. Follow the instructions in the “Question” column and on the Classifying Using Biotechnology Worksheet to complete the virtual lab. Record your data in Table 1.
6. Answer questions 1 - 10 on the Classifying Using Biotechnology Worksheet.
