

BAKING COOKIES

Write an algebraic expression for each statement.

- Sandra made 3 more batches of cookies than Tommy.
- King cut out 10 fewer sugar cookies with a cookie-cutter than Steve.
- Tommy baked 5 times as many cookies as Sandra.
- Tommy frosted 8 more cookies than King.
- Sandra has 6 fewer plates of cookies than King.
- Tommy served 3 times as many cookies as Steve.
- The boys washed half as many dishes as the girls when cleaning up.
- The kids ate 10 fewer cookies than the number of pies they made to sell.
- King made 5 more pounds of cookie dough than Sandra.
- King and Sandra made 12 more pounds of cookie dough than Tommy.
- The boys made 500 fewer cookies than the girls.
- There were 3 times more sugar cookies baked than chocolate chip cookies.
