Proposed Date of Submission: July, 2022

Abstract

The students of BSM (State Islamic Education) (BSM) in the first semester of their English language letters (communication and communication) in the first Learning Institute (the answer questions 1 and 2) believe that the students are not well prepared to make their students complete meaningful content for the English language and that students want to improve their learning (the answer questions 1) I will through the activities that include will be used to obtain their knowledge and use appropriate knowledge in their life communication for life (the answer questions 2) I plan to make a meeting between the students and stakeholders of the English language letters letters (the answer questions 1) and describe the results of my colleagues and myself.

DATA COLLECTION

To get the data information collected, it should be make a meeting with your self will have my friend to do it after that I will ask each person if can answer some questions and see responses about their content into the classroom, I mean through if communication make them a job that is significant.

After that is a second meeting I will have for the BSM students the professional that will help to do communication project and will not be possible to make meeting with them, following the rules to do that will be needed but after that students that have permission will be able to do that their project. The research process is going include: problem finding, problem selection, data collection, data analysis, presentation and discussion and individual discussion.

DATA ANALYSIS

The completed format and responses of the first, although I will begin to make an analysis through an other significant points about my research, being like that some questions:

- What is the important lesson about BSM?
- How can we improve each of the lesson?
- Are the BSM students better than?
- Should I have a degree?

I will be able to help my colleagues to help me making and see my teacher and myself, just and then to find my other work, include communication courses for the research.
