

- Cut out double rectangles along fold lines to form cards that look like: 
- Each student or pair of students receives all 16 cards and must build a chain matching the number in standard form on one card with its correct scientific notation form on another card.

START	51,200	5.12×10^4	0.512
5.12×10^{-1}	512	5.12×10^2	51.2
