

I'm a Little Raindrop

(sung to the tune of "I'm a Little Teapot")

I'm a little raindrop, small and round.
Watch me as I fall to the ground.
When the sun comes out and starts to glow,
I'll evaporate and up I'll go.

In the sky so high, I will cool down
And join other drops to form a cloud.
When the cloud gets heavy, watch me go.
I'll fall again as rain or snow.
