

Labeling and Coloring your Fertile Crescent Map

First, locate and label the bodies of water. Second, locate and label the other features listed below. Third, outline the specific area of the Fertile Crescent. Fourth, draw in the two mountain ranges. Fifth, color the water, the area of the Fertile Crescent, and the mountains.

Bodies of Water:

- | | | | |
|---------------------------------------|---|---------------------------------------|--|
| <input type="checkbox"/> Red Sea | <input type="checkbox"/> Mediterranean S. | <input type="checkbox"/> Caspian Sea | <input type="checkbox"/> Euphrates River |
| <input type="checkbox"/> Persian Gulf | <input type="checkbox"/> Black Sea | <input type="checkbox"/> Nile River | |
| | | <input type="checkbox"/> Tigris River | |

Other Features

- | | | | |
|---------------------------------------|--|---------------------------------|--|
| <input type="checkbox"/> Zagros Mtns. | <input type="checkbox"/> Syrian Desert | <input type="checkbox"/> AFRICA | <input type="checkbox"/> Mesopotamia |
| <input type="checkbox"/> Taurus Mtns. | <input type="checkbox"/> Arabian Peninsula | <input type="checkbox"/> ASIA | <input type="checkbox"/> Ur (city-state) |

Annotated Fertile Crescent Map

Write the vocabulary words and the definitions for Chapter 3, Lesson 1 in a fun and interesting way! First, label and color the blank map of the Fertile Crescent. Second, annotate it (like the Hunter-Gatherer Annotated Illustration) using the vocabulary terms below. Select a place on the map to write each vocabulary word and its definition.

Make sure you write the vocabulary words in places that makes sense according to their meanings!!!

- Mesopotamia
- floodplain
- silt
- semiarid
- drought
- surplus
- city-state (Ch. 3, Lesson 2)
